Education

KIET Group of Institutions

Bachelor of Technology in Computer Science; CGPA: 8.5/10

Oct 2022 – Present

Ghaziabad, India

Experience

Agile Tech Growth

Software Engineer Intern

Jan 2025 – Present

Delhi-NCR, India

- Developed SSAFKAR admin and user portals using Next.js, optimizing frontend performance by 25%.
- Implemented ERP solutions using Next.js, Node.js, Prisma, PostgreSQL, and AWS, improving data processing speed by 30%.
- Built responsive applications with advanced state management, enhancing user engagement by 40%.
- Collaborated with cross-functional teams to deliver multiple production-ready web applications within tight deadlines.

Technology Business Incubator (TBI)

Software Engineer Intern

Sep 2024 – Dec 2024

Ghaziabad, India

- Developed full-stack solutions using MERN stack, reducing platform load times by 30%.
- Automated startup data workflows for 50+ startups, cutting document processing time by 40%.
- Implemented Redux store for scalable state management, enhancing overall user experience.

Projects

Municipal Grievance Management System [Link](#) | Next.js, Node.js, MongoDB, Google Gemini API

Jan 2025

- Led a 4-member team to create an AI-powered municipal complaint system with 90% automated routing accuracy.
- Integrated Google Gemini API for natural language processing, reducing complaint registration time by 60%.
- Built RESTful APIs for complaint management and JWT-based authentication with 99% system uptime.
- Implemented email notification system with HTML templates, processing 100+ test complaints with real-time tracking.

Pocket Cloud [Link](#) | Next.js 13, React 18, Firebase, NextAuth.js

Nov 2024

- Developed a personal cloud storage app with Google OAuth authentication and nested folder structure support.
- Implemented real-time storage tracking, drag-and-drop uploads, and trash management using Firebase Storage.
- Created responsive design with dark/light mode, file filtering, and search functionality for seamless user experience.
- Built quota management system with storage plan upgrades and real-time data synchronization using Firestore.

Connect Senior [Link](#) | Next.js, TypeScript, Node.js, MongoDB

April 2024

- Built a student-senior networking platform with secure authentication and RESTful APIs.
- Optimized backend performance for scalability, reducing latency by 20% and increasing user retention by 15%.
- Implemented SSR for faster page loads and SEO improvement, serving 300+ active users.

Leadership

Newton School Coding Club (NSCC) [Link](#)

Web Lead

May 2023 – Present

Ghaziabad, India

- Led development of club website with event scheduling and resource-sharing features for 500+ members.
- Organized coding workshops and mentored 200+ students in web development technologies.
- Integrated YouTube API for content delivery, automating updates and saving 100+ manual hours.
- Revamped UI/UX, increasing member engagement and activity by 25% across the platform.

Technical Skills
